Professional Experience

Fullstack Developer

January – May 2025

SFR Business | Telecommunications | Champs-sur-Marne, France

Stack: TypeScript, React, Tailwind CSS, Cursor, Node.js

- Partial frontend architecture redesign to improve maintainability and internal UX.
- Migration from native JavaScript to React with component refactoring.
- **Results:** reduced response time and smoother experience for business teams.

Frontend Developer

October 2022 – October 2024

Konbini | Online Media | Paris, France

Stack: JavaScript, Next.js, Tailwind CSS, GraphQL, WordPress

- Homepage redesign to boost engagement and modernize the interface.
- Integration of partner ad banners (+15% revenue).
- Development of dynamic Twitch embed with real-time detection.
- Automated multi-author system to streamline editorial workflow.
- **Results:** +25% monthly traffic and reduced loading times.

Junior Web Developer

April 2021 – August 2022

French Innov | Digital Solutions | Stains, France

Stack: JavaScript, React, Bootstrap

- Designed ergonomic showcase websites for restaurant owners.
 - Added interactive features to ordering kiosks to enhance user experience.
 - On-page SEO optimization resulting in a 40% increase in organic traffic.
 - **Results:** improved online visibility and increased client satisfaction.
-

Personal Projects

(Open source contribution) Spotr — Mobile app for photographers

- **Stack:** Swift, Node.js, GraphQL, Firebase
- Contributed to backend rework to simplify maintenance and enable Firebase-based admin.

Lift Up — Smart fitness assistant

- **Stack:** TypeScript, Go, Gin, React Native, Expo, Supabase
- Solo-built mobile app allowing users to create workouts, convert weights, and track BMI.

Bumble B — Remote-controlled car interface

- **Stack:** TypeScript, React Native, Expo
- Mobile app to control an ESP32-based vehicle and display real-time technical data.

Bitjustu — AI-based image editor

- **Stack:** JavaScript, Next.js, Replicate API, Vercel
- Web app for experimenting with AI-based image generation and editing.

Professional portfolio

- **Stack:** TypeScript, Go, Next.js, Tailwind CSS, Vercel, Mailjet
- Multilingual SEO-optimized portfolio with a Go-based SMTP form and smooth animations.
